

Dedicated Cybersecurity Expert specializing in-safeguarding applications and online platforms. Leveraging extensive experience in VulnerabilityAssessment, PenetrationTesting, DevSecOps, ThreatModeling, and Incident Response to enhance cybersecurity measures and protect digital environments.

Education

Aug 2023 – Present
B.Tech – CSE (IoT)
GITA Autonomous College,
Bhubaneswar
CGPA: 7.4

Ongoing (1.5 Years)
Adv. Diploma in Cybersecurity
Indian School of Ethical Hacking
(ISOEH), Bhubaneswar

12th CHSE S.C.S (Auto) College, Puri
Percentage: 74%

Achievements

- CTF Champion: Secured 1st Prize at the ISOEH Bhubaneswar CTF Hackathon in a competitive live hacking event.
- Top Rankings: Consistently ranked in the Top 2% globally on TryHackMe, solving advanced offensive security CTF challenges.
- LinkedIn Community Builder: Grew a network of 1000+ connections on LinkedIn by sharing CTF room write-ups and blogs, helping others learn cybersecurity.

Core Competencies

Vulnerability Assessment & Penetration Testing

API & Web App Security

Incident Response

AI AND LLM TESTING

Security Compliance

Security Automation

Languages

- English, Hindi, Odia, Bengali

Profile Summary

- Results-driven Cybersecurity Analyst with hands-on expertise in both offensive (Red Team) and defensive (Blue Team) security operations, including vulnerability assessment, penetration testing, SOC operations, and incident response.
- Built a recon automation framework that cut bug bounty setup time by 80%, and regularly documents CTF walkthroughs and machine solves through Medium and GitHub write-ups.
- Currently pursuing an Advanced Diploma in Cybersecurity at ISOEH, Bhubaneswar, with an A+ grade in every subject completed to date.

Professional Experience

ISOEH Cybersecurity Trainee & IBM SkillBuild Intern | Bhubaneswar, India

- Completed hands-on training in ethical hacking and penetration testing across web, network, and mobile platforms, applying practical security mitigation strategies.
- Gained direct experience in SOC workflows, digital forensics, and incident response, alongside an IBM SkillBuild internship covering threat intelligence, network defense, and vulnerability management.
- Currently completing a 1.5-year Advanced Diploma in Cybersecurity at ISOEH, maintaining an A+ grade across all subjects to date

Bug Bounty Hunter & Security Researcher

- Responsibly disclosed critical vulnerabilities to organizations including Citi Group and Rocketlane through official channels, following OWASP Top 10 methodology.
- Actively researches vulnerabilities across public bug bounty programs, maintaining professional standards in reporting and coordinated disclosure.

Projects

Master Automation Framework — Bash, Python, Nuclei, Subfinder

- Built a recon automation framework integrating subdomain enumeration, port scanning, and system hardening, cutting setup time by 80%.
- Engineered automated pentesting environment provisioning with continuous asset discovery for rapid bug bounty deployment

CyberRange (SIEM & SOC Lab) — VirtualBox, Splunk/ELK, Wireshark

- Architected a virtualized SOC to simulate real-world attacks including DDoS, port scanning, and malware propagation.
- Developed hands-on proficiency in log analysis, threat detection, and security event correlation using Splunk and ELK.
- You can view all my projects on my [GitHub portfolio](#).

Technical Skills

- Vulnerability Assessment:** Burp Suite Pro, OWASP Top 10, OWASP WSTG, Nmap, Nessus, Metasploit, Nuclei, Mimikatz.
- Network Security:** Wireshark, THC Hydra, SIEM Concepts, Firewall Configuration, Linux Hardening.
- SOC & Monitoring:** Splunk, Snort, Suricata, Logstash (ELK Stack).
- Programming:** Python (Automation), Bash, Java, SQL, PHP.
- Cloud & Containers:** AWS (Basic), Docker.
- Operating Systems:** Kali Linux, Parrot OS, Ubuntu, Windows Server.
- Virtualization:** VirtualBox, VMware Workstation/ESXi.

Certifications

- Certified Network Security Professional (CNSP), SecOps Group, 2026
- Certified Security Engineering & Defensive Professional (CSEDP), SecOps Group, 2026
- Microsoft Security Operations Analyst (SC-200), Microsoft, 2026
- Advanced Diploma in Cyber Security (ADCS), C-DAC, 2025
